

SE u3a Forum Summer School

Monday 7th – Thursday 10th September 2026
University of Chichester

Artificial Intelligence (AI) - Beginners

Maximum 12

Investigate in broad terms what is AI; what can it do; what can't it do.

Noting the fact that this is a very fast-moving technology which may need to be updated even during the week we are meeting.

Explore the advantages and disadvantages of AI and reality of the 'horror stories.'

Think about the Ethics of the technology. Learn collaboratively from the tutor and each other.

Summer School Course - 2026

Look at AI in three areas:

1. large LANGUAGE databases including the famous chat Bot GPT, but remember GIGO garbage in garbage, out and including examples of voice-controlled devices e.g. Siri, Alexa, Google microphone
2. VISUAL – AI generated pictures, manipulation, fake news pictures and videos, 'sloping', AI generated music.
3. ROBOTS

Understand where further information can be obtained and ideas for taking your learning forward.
